### **To holders of Ordinary Shares in the Company**

Dear Shareholder

### **CIRCULAR TO SHAREHOLDERS AND NOTICE OF EXTRAORDINARY GENERAL MEETING**

#### **Introduction**

As announced today, the Company is proposing a placing programme of up to 150 million New Ordinary Shares (the “**Placing Programme**”). The Company will be publishing a Prospectus in connection with the Placing Programme in due course.

As the Placing Programme will not be pre-emptive, the Company is asking Shareholders to approve the disapplication of the pre-emption rights contained in the Articles in relation to the Placing Programme (the “**Pre-emption Disapplication**”) by way of a special resolution (the “**Pre-emption Resolution**”).

Consequently, the Board is convening the Extraordinary General Meeting in order to put the Pre-emption Resolution to Shareholders.

The purpose of this Circular is to explain the background to, and reasons for, the Placing Programme and the proposed Pre-emption Disapplication. Notice of the Extraordinary General Meeting at which the Pre-emption Resolution will be put to Shareholders is set out in Part II of this Circular.

**Shareholders should make their own investigation of the proposal set out in this Circular, including the merits and risks involved. Nothing in this Circular constitutes legal, tax, financial or other advice, and if they are in any doubt about the contents of this Circular, Shareholders should consult their own professional advisers.**

#### **The Placing Programme**

##### *Background to, and reasons for, the Placing Programme*

The Company launched in March 2014 raising £160 million through the issue of 160 million Ordinary Shares. The net proceeds of the IPO were invested in a diverse portfolio of Environmental Infrastructure assets across solar, wind, waste and wastewater sectors. The Company's portfolio has continued to grow following the IPO, funded through the drawdown on its Facility and two further equity capital raisings, one in each of 2015 and 2016, totalling approximately £100 million. The Company's portfolio now comprises five solar PV assets, eleven onshore wind farm assets, two waste processing assets and one wastewater treatment asset.

More recently, the Company has issued 22,435,643 Ordinary Shares pursuant to a tap issuance programme announced in July 2016 utilising the Shareholder authorities granted at the 2015 AGM and 2016 AGM. This issuance was undertaken in order to satisfy excess demand in the secondary market and provide capital for a pipeline of opportunities available to the Company.

The Company is now limited in the number of Ordinary Shares it is able to issue under the Shareholder authorities granted at the 2016 AGM and without the publication of a prospectus.

The Company has a significant pipeline of opportunities to acquire Environmental Infrastructure assets both from the John Laing Group and third parties, and the Company wishes to ensure that it is in a position to capitalise on these opportunities as and when they become available. The Company is therefore proposing the Placing Programme under which it will be able to issue New Ordinary Shares to take advantage of investment opportunities as they arise, either by way of a series of Placings, Tap Issues or a combination of both.

Accordingly, the Board has decided to seek Shareholder approval to issue up to 150 million New Ordinary Shares pursuant to the Placing Programme at the Extraordinary General Meeting to be held on 15 December 2016. The Company will also publish a Prospectus in connection with the Placing Programme in due course.

The net proceeds of any Issues undertaken pursuant to the Placing Programme will be used to repay amounts drawn under the Facility and/or to fund acquisition opportunities in accordance with the Company's investment policy, subject to the circumstances at the time of each Issue.

#### *Benefits of the Placing Programme*

The Directors believe that the Placing Programme will have the following benefits:

- the Company will be able to repay existing borrowings under the Facility, thereby freeing up capacity in order to fund acquisition opportunities;
- it should enable the Company to take advantage of investment opportunities as they arise in the future, mitigating the risk of cash drag;
- it will enable the Company to raise additional capital quickly, in order to take advantage of discrete pipeline investment opportunities;
- it will enable the Company to continue to undertake further tap issuance to satisfy excess demand in the secondary market, subject to its capital requirements;
- the market capitalisation of the Company will increase, and secondary market liquidity of the Ordinary Shares is expected to be improved;
- additional acquisitions will further grow and diversify the Company's portfolio;
- the Company's competitive position will be increased by it becoming a larger market participant and through growth in its portfolio; and
- the Company's fixed running costs will be spread across a larger equity capital base, thereby further reducing the Company's ongoing charges ratio.

#### *Overview of the Placing Programme*

The Company is seeking to issue up to 150 million New Ordinary Shares through the Placing Programme. Under the Placing Programme, the Company will be able to issue New Ordinary Shares in one or more tranches (pursuant to Placings and/or Tap Issues), on such dates as are determined by the Directors, during the twelve month duration of the Placing Programme.

The net proceeds of the Placing Programme will be dependent on: (i) the aggregate number of New Ordinary Shares issued pursuant to the Placing Programme; (ii) the price at which such New Ordinary Shares are issued; (iii) the number of New Ordinary Shares issued pursuant to each separate Issue under the Placing Programme; and (iv) whether the relevant Issue is carried out by way of a Placing or a Tap Issue. However, assuming that the maximum number of New Ordinary Shares available under the Placing Programme are issued and assuming a Placing Programme Price of 103 pence per New Ordinary Share, it is expected that the Company would raise gross proceeds of £154.5 million from the Placing Programme. The net proceeds of the Placing Programme, after deducting expected expenses of approximately £2.2 million (based on the Company's expected issuance profile for the Placing Programme), would be approximately £152.3 million.

New Ordinary Shares issued pursuant to the Placing Programme will, when issued and fully paid, rank equally in all respects with the Existing Ordinary Shares, including the right to receive all dividends or other distributions made, paid or declared (if any) out of the profits of the Company attributable to the Ordinary Shares by reference to a record date after the date of their issue. For the avoidance of doubt, New Ordinary Shareholders will not be entitled to receive the interim dividend of 1.53 pence per Ordinary Share announced in respect of the period to 30 September 2016 and payable on 22 December 2016.

All the New Ordinary Shares will be in registered form and eligible for settlement in CREST. Temporary documents of title will not be issued.

Application will be made to the UK Listing Authority for all of the New Ordinary Shares to be issued pursuant to the Placing Programme to be admitted to the premium segment of the Official List, and to the London Stock Exchange for all such New Ordinary Shares to be admitted to trading on the Main Market. It is expected that Admissions in respect of the Placing Programme will become effective, and that dealings for normal settlement in New Ordinary Shares issued pursuant to the Placing Programme will take place, between the date of publication of the Prospectus and the date that is twelve months after such date of publication.

#### *The Pre-emption Disapplication*

In accordance with the requirements of the Listing Rules in relation to companies with a premium listing, the Company's Articles give Shareholders pre-emption rights over any issue of further shares of a class held by such Shareholders. The pre-emption rights may be disappplied pursuant to a special resolution of Shareholders.

As the Placing Programme will not be pre-emptive, Shareholders are being asked to approve, by way of the Pre-emption Resolution, the allotment and issue of up to 150 million New Ordinary Shares (being the maximum number of New Ordinary Shares that could be issued pursuant to the Placing Programme) on a non-pre-emptive basis. The maximum number of New Ordinary Shares that could be issued pursuant to the Placing Programme would represent 53.0 per cent. of the total issued share capital of the Company as at the date of this Circular. Such approval will expire on the date that is twelve months after the date of publication of the Prospectus regardless of whether any New Ordinary Shares have been issued before that time and will be limited to the allotment and issue of New Ordinary Shares pursuant to the Placing Programme. The Pre-emption Resolution will be put to Shareholders at the Extraordinary General Meeting.

If the Placing Programme meets its maximum size of 150 million New Ordinary Shares, the share capital of the Company in issue at the date of this Circular will, following the Placing Programme, be increased by 53.0 per cent. as a result of the Placing Programme. On this basis, if an Existing Shareholder does not acquire any New Ordinary Shares, his or her proportionate economic interest in the Company will be diluted by 34.7 per cent.

All New Ordinary Shares issued under any Issue pursuant to the Placing Programme will be issued at a premium to the latest published Net Asset Value per Ordinary Share which is at least sufficient to cover the costs and expenses of the relevant Issue.

#### **Extraordinary General Meeting**

The Pre-emption Resolution will be put to Shareholders at the Extraordinary General Meeting, which is being convened for 10.00 a.m. on 15 December 2016. The Notice of the Extraordinary General Meeting is set out in Part II of this Circular.

The Pre-emption Resolution will be proposed as a special resolution requiring the approval of a majority of not less than 75 per cent.

All Shareholders are entitled to attend, speak and vote at the Extraordinary General Meeting and to appoint a proxy to exercise that right.

#### **Action to be taken**

Shareholders will have received, or will shortly receive, a Form of Proxy for use by Shareholders in relation to the Extraordinary General Meeting. Whether or not you propose to attend the Extraordinary

General Meeting in person, you are requested to complete the Form of Proxy and return it to the Company's UK Transfer Agent, Capita Asset Services, at PXS1, 34 Beckenham Road, Beckenham, Kent BR3 4ZF as soon as possible but, in any event, so as to arrive by 10.00 a.m. on 13 December 2016, or not less than 48 hours before (excluding weekends and bank holidays) the time for holding any adjourned meeting, as the case may be.

Completion and return of Forms of Proxy will not prevent you from attending and voting in person at the Extraordinary General Meeting should you wish to do so.

**Recommendation**

The Board believes that the proposed Pre-emption Disapplication is in the best interests of the Company and Shareholders as a whole and unanimously recommends that Shareholders vote in favour of it, as all of the Directors intend to do in respect of their own beneficial holdings of Ordinary Shares which, as at the date of this Circular, amount in aggregate to 224,807 Ordinary Shares (representing approximately 0.08 per cent. of the existing issued ordinary share capital of the Company).

Yours faithfully

**Richard Morse**
