### Investment portfolio

- JLEN invests in a diversified portfolio of environmental infrastructure projects
- It aims to provide investors with a sustainable, progressive dividend, paid quarterly, and to preserve the capital value of its portfolio over the long term on a real basis
- Environmental infrastructure is infrastructure assets, projects and asset-backed businesses that utilise natural or waste resources or support more environmentally-friendly approaches to economic activity, support the transition to a low carbon economy or which mitigate the effects of climate change
- The current portfolio includes 37 onshore wind, PV solar, waste, waste water processing, hydro, anaerobic digestion, bioenergy, battery storage and low carbon refuelling projects in the UK and Europe

### Investment policy

- JLEN's policy is to invest in environmental infrastructure projects that typically have one or more of the following characteristics:
  - long-term, predictable cash flows, which may be wholly or partially inflation-linked cash flows;
  - long-term contracts or stable and well-proven regulatory and legal frameworks; or
  - well-established technologies, and demonstrable operational performance
- No more than 25% of the net asset value will be attributable to projects in construction and not fully operational
- At least 50% of the portfolio by value will be based in the UK and no single project will represent more than 30% of the net asset value after acquisition

### Investment attractions

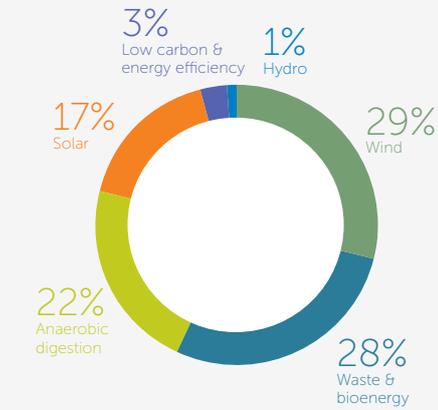

- Investment in renewable energy projects is supported by a global commitment to the transition to a low carbon economy
- The markets in which JLEN operates continue to evolve as the build out of sustainable infrastructure takes on new forms. JLEN's broad investment policy allows it to continue building a resilient and diversified portfolio of assets that have a range of operating models that are not dependent on a single market or set of climatic conditions
- Potential upside to asset value comes from active management of the existing projects
- Strong commitment to ESG and sustainable investing with transparent monitoring and reporting
- Investment Manager – Foresight Group is a leading infrastructure and private equity investment manager with a highly experienced global infrastructure team supported by an in-house asset management team
